Bluetooth 5.0

Touch control

Binural HD call

Ergonomics

## 6D surround bass to turn on music mode

HIFI sound quality to add power to your playlist

## Bluetooth wireless 5.3 chip

A new generation of low-power 5.3 chips, simpler and faster connection, more stable signal, faster transmission, allowing you to enjoy wireless freedom

## Soft and comfortable, no pain to wear for a long time

Using high-quality liquid silicone material, advanced in-mold secondary injection molding process is skin-friendly, soft and elastic, comfortable to fit the contour of the ear canal, more suitable for wearing, and the noise reduction effect is not reduced.

## Product introduction:
